emails & Friday

Wednesday, April 10, 2002 12:24 AM

From: "Matt O'Malley" <motoski@yahoo.com>
To: "Jebb Dykstra" <jebb@techsectorlaw.com>

Jebb,

I unfortunately did not get a chance to create those e-mails before we left - hopefully, by Thursday. My other appointment is 1 - 3pm on Friday, so please let me know if we can work before or after that.

Jebb,

It is after 10 pm, I am still at the office and I probably will be for quite a while. Sorry, I didn't get my e-mail out regarding Maher. I just checked my messages and heard your phone call from earlier, thanks. Yes, hopefully between the two of us, we can put something together.

**Agreement**

Tuesday, May 28, 2002 3:34 AM

From: "Matt O'Malley" <mtoski@yahoo.com>
To: "N Hawash" <mhawash@attbi.com>

Maher,

Too many things to do this weekend and some pc hassle to boot. I am about 80% done on the changes to the Agreement and I hope to finish it soon. I still haven't tried buring a copy of AI yet or putting together the list of MP3 OEMs, hopefully that will be soon as well. I am sending this e-mail from my notebook, because I was having problems with the cable modem.

facility search

To: brijam@jamilson.org

Brian,

I am up in San Jose, so it may need to be next week before I can get a hold of some day trader friends of mine. The one brokerage house that I was referring to last Saturday, is called Andover. They have an office in Westwood (which I have not been to) and one near my home in Encino. As we talked about, these types of facilities usually have high-end systems with dual monitors - that basically sit idle after 1 pm everyday - including the weekends. So its probably worth a little investigating. I won't be back by this Saturday, but lets talk next week or the next Saturday.

Good luck,
Matt O'Malley

Either we can use LA based talent (A2K) or have them do it remotely (ie. Vox Talent out of Canada at the very bottom of this email). See Excel spreadsheet for names with "x" as possibilities (2 worksheets inside the excel attachment).

The next two links below are both for Agency 2000 (A2K) which is listed as a non-union voice over source in Los Angles. One is a third party link and the other is their direct link, but the names on the 2 lists are very different.

Matt -

Looks good! A couple of comments:

- Case: supporting "slide-in" templates for custom branding
- Regarding numeric keypad: we should also get pricing on using slide-in templates here, so that the keys can be easily and cost-effectively customized for different customers
- Regarding the speaker - do we want polyphonic sound (like Wayne's cell phone)? I'm guessing it's not necessary...

Maher,

Please look over my rough attempt at our hardware specs and fill in what's missing. I would like to send something off today, if possible (we can always amend it later). Also please run this by your friend. Ideally we would get individual component pricing and not a lumped sum. thanks

To: "Tim Sanders" <tim@thefirstmile.net>

Dear Mr. Sanders,

We meet briefly after your session yesterday – which I enjoyed. I mentioned that we are looking to negotiate rooftop agreements in some larger cities. I was curious if your schedule would allow meeting today, either during the lunch break (lunch at 12:35 pm, next door at the Westin hotel) or this evening after the exhibits around 6:15 pm? (I already have a 5-6 pm meeting).

If these times are not good, perhaps we could talk by phone or emails next week – unfortunately/fortunately, we are rather heavily booked with appointments the rest of today and tomorrow. It's probably easier to leave a message on my cel phone - verses scheduling via email.

Hi Caron.Just for the record, I took your mother into Baraboo Hospital last
night around 8:00 PM. At first they thought that they might send her home

yet last night after giving her IV and after taking x-rays. But the Dr saw her legs and thought they would keep her to see what can be done with the infection. She is in room 3382 and telephone is 355-1778. Eber

Exhibit D

is a grid listing every email and/or document in Exhibit C and how it was relevant towards the due diligence.

Color Key

Enlarged explanation of color key and relevance briefly explained

	Yellow refers to key emails relevant to invention (referred to as TelAbout or code name Waitless) for R&D, product demo, Investors, Legal, Events, or Meetings
	Pink refers to emails, attachments, and/or documents relevant to the product demo
	Blue refers to emails relevant to other work and family (mother passed away) obligations
	Green helps divide up key columns per subjects of: R&D, Engineering, Investors, Legal, Events & Migs

For example, using the total numbers listed in the 1st column to the right and that also appears at the top of the Exhibit D screenshot below, there are "64" emails and/or documents that mention "research and development" of the invention progress.

Note that several of the emails and/or documents contain materials relevant to more than one listed subject column (e.g. "research & development" and say, "engineer search") where a "1" is then marked in each column in the row (see below).

Column Key
